Single or Mixed-gender Schools

Read the text below and choose the correct word for each space.

After the talk at school, we have discussed a lot about if single or mixed-sex schools are better. (1) _____ students say that it would be better for girls and boys not to study together. However, I think mixed-sex classrooms are the best way for all of us.

Firstly, girls and boys (2) _____ not always have a bad effect on each other. In fact, the opposite is often true as girls can calm (3) _____ boys in the classroom. Also, the sense of competition boys bring to the classroom can make girls study harder.

Secondly, schools help us prepare (4) _____ life outside school and our future workplaces will not separate us along gender lines. Therefore, we need to practice working with the opposite sex today if we are going to be any (5) _____ at it in the future.

In the end, mixed-sex classrooms will not (6) _____ everyone happy, but we must learn how to work together because we will be doing it for a long time to come.
